Welcome to Tiny Bubbles Aquatics

Our Focus: To develop safe and happy swimmers

Our Philosophy:

The swim team at Tiny Bubbles Swim School's purpose is to develop a Safe swimming environment where swimmers can develop their swimming skills while having fun. Swimming is a life skill and everybody should learn to swim.

We teach water safety first (Survival) and then teach the four basic swimming strokes.

We encourage all swimmers to excel and to become the best swimmers they can possible be.

This can only be achieved with good coaching and eager participation by all swimmers who want to take their swimming to a competitive level.

Motto: Practice makes perfect - Strive for excellence.
